SHIEC HIE MEMBER PROGRAM OVERVIEW AND APPLICATION

SHIEC members are community, regional and state-wide health information exchanges (HIEs) working together to increase the value they deliver to their stakeholders. Our members share best practices and advocate for health IT interoperability nationwide.

SHIEC already represents roughly half of the HIEs in the United States, and we are growing rapidly. We work with HIEs to ensure our members' collective needs are represented in nationwide conversations about health IT and health data sharing.

SHIEC is actively promoting awareness of the amazing work of HIEs throughout the country, and our growing numbers support our collective claim that the HIE community is one of the most important voices in nationwide health data sharing and stewardship.

HIE Member Eligibility Requirements

- ✓ Governmental or legal entity primarily engaged in providing health information exchange services in a multi-stakeholder environment
- ✓ Must have an established multi-stakeholder governance process
- ✓ Active website describing your stakeholders, mission, governance and services provided
- ✓ Be current on annual subscription fees as established by the SHIEC Board
